

20th ICIN Conference, 07-09 March 2017, Paris, France

Sponsorship Opportunities

Since 1989, the mission of the ICIN series of conferences is to provide an international technical forum for experts from industry and academia to exchange ideas and present results on evolving communications services. ICIN is a peer review event. The conference programme is constructed by an independent Technical Programme Committee consisting of subject experts from a wide variety of industry players. The 2016 edition attracted 186 delegates from various countries, firms and functions.

Industry Experts and Decision Makers

Embodying the Full Value Chain

The Technical Programme Committee selects papers through a rigorous and transparent review process and is fully responsible for the quality of the program and its content. Sponsorship of ICIN does thus not grant any right to speak in the conference program (technical tracks and keynotes). However, sponsors are made highly visible in the slides and the delegate material. Some packages include also speech opportunities.
